

Event Name : Participated in the **5G Hackathon** organized by the **Department of Telecommunications (DoT), Government of India.**

Title topic :

Listener Drone: A 5G Use Case for Environment, Public Safety and Disaster Management

Team details:

Annesya Banerjee and **Achal Nilhani**, presently 4th year undergraduate student in the **Department of Electronics and Telecommunication Engineering** at **Jadavpur University**, mentored by **Prof. P. Venkateswaran**

Recent Achievement

Selected among the **Top 30 projects of the 5G hackathon**. Consequently, the team has received an invitation to exhibit their project at the **India Mobile Congress (IMC) 2020** during Dec. 8-10, 2020

India Mobile Congress:

South Asia's Largest Digital Technology Event with over 15,000+ visitors, 3,000+ CXO's, 60+ partners & exhibitors, 20+ start-ups, 110+ speakers, 28 Conference Sessions, 30 Hours of Content and 500Mn+ Social Media Impressions.

A separate Booth has been assigned exclusively for Jadavpur University during the IMC 2020 held during Dec. 8-10, 2020 and Annesya & Achal represented Jadavpur University at this globally recognized event. They have shared the exhibition hall with organizations like IIT Delhi, Infosys, Wipro, CDAC, etc. **Respected Prime Minister of India has inaugurated the event.** There were also many other big companies (Top 40 Canadian Companies, Telecom. Sectors like **JIO, Airtel, Ericsson, Red Hat, CISCO, Nokia**, and many more) and industry personnel like **Mr. Mukesh Ambani** (Head of Reliance JIO), **Mr. Sunil Bharti Mittal** (Director of Airtel), **CEO of KPMG, Minister of Telecommunications** and other respected persons present. The team from Jadavpur University has also successfully exhibited their project at the exhibition with 100+ attendees from academia and industry at their booth over the 3-days period and has received very positive feedback from all of them.
